

MOBILE PRINTER

Missing shelf tags? Need multiple tags for the same product? Spending too much time hand-writing tags? We have the solution.

With the new **iUNFI mobile belt printer**, your staff can print labels right at the shelf reducing labeling errors and saving time. These compact printers take productivity and ease of use to the next level with a large color display, fast wireless connectivity, and long-lasting battery.

WHY CHOOSE UNFI

- Printer configured and ready for use with your iUNFI device
- Cost-effective subscription price per device
- Easy ordering process

Key Features

- Print tags on the fly
- Eliminate the need for hand-written tags
- Consistent tag format throughout the store
- Prevent lost sales or fines caused by missing tags
- Easy cleaning between uses
- Included belt clip and shoulder strap allow for ease of use while scanning and printing tags
- Next Business Day replacement (dependent upon UPS delivery schedule)

Hardware

- Easy to load tags and auto alignment
- Rechargeable onboard battery
- Bluetooth pairing to iUNFI ordering device

“ I like the mobile printer because it’s a small unit making it easy to carry around. The portability allows me to change prices and cut in and tag new items when it’s convenient for me. The tags print clear and smudge free so I don’t have to go to the office for printing or wait on them to be shipped anymore. ”

- Larry P.
Silver Lakes Mkt., Helendale, CA
